Re: Licensing of Temporary Attachments to City-Owned Facilities

EXECUTIVE SUMMARY:

The Downtown Community Improvement District (CID) is moving forward with plans to provide free wi-fi in the CID area. This project will require the placement of small transmitter devices on top of strategically sited public and private facilities. Fullstream Wireless, a local broadband internet provider has contracted with the CID to install and operate this service.

DISCUSSION:

Staff has met with the CID and Fullstream and have no objections to the placement of these devices on City owned facilities. The CID wi-fi project will be a six month targeted pilot to help determine how a complete roll-out might best be accomplished. An agreement was originally contemplated; however, in conversations with our Law Department, it was determined that authorizing the City Manager to approve and sign a simple licence agreement for any "temporary attachments" is a much more efficient way to accomplish the same objective. It also gives the City the ability to terminate a license should circumstances necessitate.
